

## SHARK MITIGATION MEASURES IN Port Stephens Local Government Area Worimi Country

**Drone** surveillance is provided seasonally by Surf Life Saving NSW (SLS NSW) whereby operators are able to spot potentially dangerous sharks. Visit SLS NSW website to check operating times.

Tagged sharks (being White, Tiger and Bull sharks) can be detected by **tagged shark listening stations** across the NSW coastline when they swim within 500 m of the unit. That detection is then posted to the SharkSmart app, website map and Twitter.
